Agenda

- Discuss for the final version of Demo 1.
- Shared the progress we had done so far and combine them together.

Notes

- Get feedback on each page and give some advice on who we can improve on the next Demo.
- The Home page should add more feature on it such outcoming event, and a clickable time list.
- Each block of the Calendar can be clickable and take some actions such as add events or add reminders.

- Summary page is great. We need to connect the front-end to the back-end and analysis the data.
- To-do-list is great.
- Need to add more feature on the toolbar of notes page.

Decisions

- Confirm our final version of Demo 1.

Actions

- Do some small adjustment like spacing and color selection to consolidate style of placement and layout.
- Merge all the work together and make an installer to the main branch.
