
CS 346: Meeting Minutes

Date: Nov 1st 2023

Team: 211

Present: All

Absent:

Agenda

- Discussing about the issues with saving notes and pulling notes from database
- Discussing about the issues with creating to-do button in the To-do section.
- Discussing about the adding events feature in Calendar.

Notes

- Cannot modify the html after loading the notes from the database.
- Unfamiliarity with database caused some data loss, out of bound, cannot access data issues when saving notes.
- Some Kotlin types do not exist in SQLite and requires type conversion.

Decisions

- We decide to use the same logic for event creation as in the to-do list creation.

Actions

- Consulting the documentation of SQLite and keep fixing the issues.
- Finish implementing the creating to-do button and saving notes button.
- After finishing the creating to-do button, implementing the creating events button.
