CS 346: Meeting Minutes

Date: _____10.8_____   Team: 211

Present: Everyone

Absent:

Agenda

- Enrich the style for front-end and choose Material3 to implement.

- Discuss the plan for the layouts of each component, such as Home, calendar, summary, to-do-list, and notes pages.

Notes

- The potential issues are set up Material3 environments and seeking possible implementation to our application design.

Decisions

- Decided the color theme of our application, which main color is green.

- Decided the layout of each page, aiming to have a well-designed and usable interface.

Actions

- Together figured out how to redesign and rearrange the home page using Material3.
- Work individually on each member's branch to develop their target page.
