Agenda

- Discuss the plan for achieving bonus mark along with the potential issues.

- Discuss the basic layout for front-end along with the high risk item for front-end.

Notes

- The potential issues are logged and pushed to Gitlab.

Decisions

- Implementing one of the layouts we designed, and finish the welcome window firstly before completing any individual window.

- Aim to complete all the bonuses except for developing multi-platform application.

Actions

- Start the interface development as soon as possible, especially the main window.
- Consider how we can achieve the bonus a head of time.
